

The logo for the USC Gehr Family Center for Health Systems Science is located at the top center of the page. It consists of a dark red rectangular background. The text "USC Gehr Family Center for Health Systems Science" is written in a white serif font, with "USC" in a larger, bold font. Below this, "Keck Medicine of USC" is written in a smaller, white sans-serif font.

**USC Gehr Family Center
for Health Systems Science**
Keck Medicine of USC

Vision:

To achieve high-value and equitable healthcare for the Los Angeles community and nationwide.

Mission:

We accelerate the adoption of high-value and equitable healthcare through science, advocacy and education:

- 1) *Delivery Science:* We aim to build evidence to bridge the gap between science and real-world healthcare delivery. We collaborate with stakeholders in care delivery to implement evidence-based practices and evaluate these efforts using rigorous methodological standards.
- 2) *Evidence Based Advocacy:* We promote the translation of science into healthcare delivery and policy reform by disseminating strategies for improving patient care.
- 3) *Education:* We educate providers, policy makers and students in health systems science and mentor future leaders. We also create a network of individuals who are interested in exchanging ideas about healthcare delivery.

Guiding Principles:

- Changes in healthcare delivery should improve the health of all populations, particularly vulnerable individuals, families and communities.
- Innovations should be sustainable in real-world settings.
- Efforts should decrease disparities in the quality, accessibility and efficiency of care.
- Studies should aim to maximize generalizability.
- Projects should engage the Los Angeles community.
- Gehr faculty, affiliates and trainees should conduct their work with professionalism, scientific rigor and respect.
